

Cecilly's Rhythm Time Match-Up Race

Objective: to correctly match up the rhythm patterns with their corresponding time signature in 1 min. or less.

To Play: On a table or surface on one side of the playing area, place the time signature cards face up. At the other end of the playing area, on the floor, randomly place the rhythm pattern cards face down. The player stands in the middle. At "go", start the timer and the player grabs a rhythm card, runs to the table and places it beside it's corresponding time signature card. Player then goes to get another rhythm card, and so on until time is up or all cards have been placed. After time is up, check to see that all cards have been placed correctly. If not, help the student make corrections. Then take all the cards from one time signature pile and have the student lay out in a 4 meas. pattern to clap and count. Repeat with the other pile of cards.
